The following biography was written by courtesy of Mr. CLIFF HUYLEBROECK who used some of my reports in his effort. I edited the work and I am grateful for CLIFF's efforts on my behalf and on behalf of all persons who are targeted for torture/death (including by DEW) by the world's intelligence community (i.e., fbi,cia,mi6,surete,SS,etc.)

Geral Sosbee

Update by GERAL SOSBEE , November 27, 2019

After years of assaults and discreet attempts on my life by fbi death squads, I am worn down, especially by attacks by DEW & ELF, causing loss of hearing, difficulty walking and aggravated heart disease.

Also the fbi and FACEBOOK team up to block me from publishing; so, I quit FACEBOOK yesterday. I consider FACEBOOK a dangerous fbi operative.

Evidence suggests that fbi reviews my medical charts, including Army records, and consults with a medical doctor on how best to incapacitate me (see false medical report by Dr. Holder at part 20 at "My Story In Detail". The difficulty with ambulation is partially explained by the general sensory neuropathy; the assaults by DEW & ELF cause extreme sleep deprivation which is horrendous. After I closed my FACEBOOK account, fbi reduced the DEW attack and allowed me to sleep more than before.

The post traumatic stress that I experienced in Viet Nam is also exploited by these ruthless fbi thugs who send operatives into locations (like Fed Ex and public libraries, stores) to come up behind me and commit assault & battery provocatively. When I file police reports, the police falsify the reports; when I try to correct the false police reports, the prosecutor routinely refuses to prosecute.

The fbi's Fusion Centers are used by all government employees to block any benefit (such as police protection) that I may seek. I document many such instances online. See part 19, a,b,c for my documentation of the fbi/Fusion Center corruption of the UT Police Department where police helped fbi send thugs into the library to distract and criminally assault me.

GERAL SOSBEE, Viet Nam, 1967:

Nazi/MAFIA/fbi

My experiences as a Target of fbi assassins are similar in some ways to the Nazi methods used by Mengele.

Congress and the Courts do nothing to address the police state now being formed in USA. See my WRIT & numerous appeals to Congress online.

The assaultive surveillance on me 24/7/365 (for about 40 years) also has a psychological component designed to wear me down. These ‘psyops’ (psychological operations) are truly incredible in their efforts to drive me to distraction. The fbi seeks a way to arrest me and , as in the past, labels me at Facebook as “dangerous”.

Many articles on the topic of government stalking programs globally have been hacked and deleted by fbi/cia/mi6/mossad/surete/SS et. al to prevent the public from learning more about torture, forced suicide and assassination programs; gangstalking and murder events as excellently reported by Mr. Cliff Huylebroeck (and others) are deleted from the Internet by the same government hoodlums in the intelligence community.

I am grateful to CLIFF and the readers are indebted to him for all of his tedious work on behalf of Targeted Individuals everywhere.

The biography of GERAL W SOSBEE written by CLIFF HUYLEBROECK is also deleted, but I recreate some of his work as shown below. Note that my work online does not represent a solicitation of any kind; I am not certified by the Texas Board of Legal Specialization.

He was born on August 30, 1945 in Carlsbad, New Mexico as Geral Wayne Sosbee.
He was raised in Dallas, Texas.
He worked for the Dallas Market Center.
In 1966 he volunteered for the war in Viet Nam.
He served 2 years.
He returned to the Dallas Market Center.
He earned a BA and MA in English at the University of North Texas.

From 1971 to 1978 he worked for the FBI.

From the book *Society of Former Special Agents of the Federal Bureau Of Investigation,* published in 1996 by Turner Publishing Company:

Geral Sosbee in the 'History of the FBI' book

http://sosbeevfbi.com/historybook.html

He's certified to instruct at the FBI academy

http://www.sosbeevfbi.com/letters.html

Things went sour when he disagreed about the arrest of a suspect (*Rodriguez).
This case became a precedent.
It's still being used to falsely imprison innocent people.

*Rodriguez case

http://sosbeevfbi.com/thisiswhy.html

He was bullied out of his job.

He became Doctor of Jurisprudence at Texas Tech University.

Geral Sosbee

He worked as an attorney in El Paso, Texas.

From 1983 to 1988 he taught English at Amber University in El Paso, Texas.
He taught Law at Webster University until 1991.
In 2003 he was bankrupt at age 58.

He made a website: www.SosbeeVFBI.com = Sosbee versus FBI.

On this website, there are about 250 pages and 2,000 images that document his efforts to get his situation resolved before a court.

In this case the reason for the harassment is clear. When he tried to help Rodriguez, it was clear that he might help a target, but

their system doesn’t work if there are people who help targets, so he had to be terminated.

Serving the U.S. Government

He describes his experience of serving the U.S. Government.

I served in the Army during the Viet Nam War; upon return I also served the FBI as a Special Agent. My service in the FBI was terminated after I reported crimes by the FBI.

Subsequently the FBI began an extreme vendetta against me toward the goal of incapacitating or killing me. Additionally, the directed energy and other assaults by the FBI aggravated the injuries I sustained in Viet Nam in 1967, including injuries associated with Agent Orange.

The FBI also added insult to injuries by mocking the service connected injuries that were and are today disabling; the FBI sent insulting messages to me regarding the injuries, even while the criminal assaults against me by the FBI continue to date for over a decade.

I realize that the Army does not care about my reports of FBI/CIA crimes against me; however, the young men and women who seek to serve their nation might care if they cannot determine which United States Of America that they are considering serving: the real United States of America, or the overthrown fascist dictatorship USA held in hostage by fbi/cia.

He believes that the Mafia has infiltrated the FBI and CIA.
In this way they are responsible for gang stalking and electronic harassment.

The FBI parades Mafia murderers around the FBI academy for the education of their agents, police, etc. The Mafia serial killers (hit men) are homicidal sociopaths and are often in the witness protection program; the FBI learns from them how the Mafia uses violent, deadly and inhumane practices against Targets.

Never co-operate with secret services. The first thing they do is turn you into a murderer (by making you accessory to their crimes, Peter Mooring).

Targets

He wrote about psychological operations against a targeted person.

As we are born into a complex world that changes from moment to moment in terms of advances in technology, science, law, and contemporary standards for human conduct, no single individual can keep abreast of all the strictures (or expectations) that are brought to bear on our modern lives; even though we may think that we are experts in our own culture, we are not. Medical doctors do not know all the answers associated with causes for

illnesses and diseases; lawyers often have no fast clue to finding remedies for legal issues that evolve from fast changing social mores; engineers and scientists must forever adjust design and focus of their work to deal with ever changing technologies, new discoveries and emerging societal forces and human needs.

The average individual human being may at times find himself adrift in an unfamiliar and alien sea filled with incalculable dangers. We have discovered that we cannot always cope with the stresses that we encounter on a daily basis. Returning war vets, or otherwise traumatized persons sometimes seek advice, treatment and comfort to ease medical conditions or psychological pressures. When no effective assistance is available, some of our fellow citizens may suffer, collapse and die, even while we watch on some popular cop or quasi news shows. In extreme cases the confused or disoriented citizen is imprisoned, tortured, forced into suicide, or shot dead by the very same government agents who pretend to defend our liberties.

This is an important point because no one among us is immune to neurosis when tragedy strikes. We should therefore reconsider our societal relationship with those we condemn (to prison or death), lest we abruptly someday join their numbers. Actions against a citizen by government agents and their citizen action committees often provoke the Target into wild conduct; such intentional assaults are intended to cause the Target to respond violently so that he may be arrested or killed.

We see examples of this on our streets almost daily; and I have presented numerous instances of such intentional provocations in many of my reports. Further, no attention is focused on psychological operations against a targeted person even though a growing number of persons worldwide now testify that they are targeted by ruthless and painful campaigns. No law exists that may stop the type of violent activities in which the FBI and the CIA engage regularly against their Targets, foreign and domestic. Even civil court judges routinely ignore the criminal actions of police and FBI against the accused. Thus the person portrayed as a madman on some TV shows is in reality a product of a corrupt public policy standard that authorizes the torture, imprisonment

and killing of a given Target.
